Informed Consent

Northern Flexible Learning Enrolment

Informed consent must be given by a parent or caregiver or independent student when the school is engaging a service provider to work with a child/student. Informed consent means that you understand what is going to happen and that you give your permission (consent) for the action to go ahead.

THE CONSENT PROCESS

Informed consent is not just a form or a signature, but a process of information exchange that takes place between you and the school staff. This is usually the school director, school principal or teacher.

The consent process contains four main parts:

1. Information: You should be provided with enough information to understand what your consent means. It is important that you clearly understand all the parts of your consent, which include:

- **Service provider engaged** - their role and what type of service/support they are likely to provide.
- **Exchange of information** – information may be shared between service provider/agencies and the school, or from school to school if the student/you move, or with other agencies also providing services to your child/you.
- **Record Management** – how files are kept, the kind of information that is recorded in the files and also on databases, and who has access to them.
- **Length of consent** – how long your consent is valid.
- **Closure** – how you can withdraw your consent and the case closure process.

2. Understanding: It is important that you understand each of the above parts. It is also important that school staff have done what is necessary to make sure you understand this information. If English is not your first language, you can also ask for an interpreter to help you.

You should be given enough time to review the consent form and ask questions before signing the consent form. When you talk about the enrolment with school staff, the discussion should be held in a confidential area, such as a private office or room.

3. Willingness to give consent: You have the right to not provide your consent. However, this may limit the types of support which can be given to your child/yourself. You also have the right to withdraw your consent at any point.

4. Signatures: When you sign the form you give your permission for the school to engage with various community service providers and agencies to support your child/yourself.

EXCHANGE OF INFORMATION

The sharing of information between service provider, support services, school staff, and other agencies is important to help with a more coordinated approach in working towards better outcomes for your child/you. The information will be shared on a strictly 'need to know' basis for the purpose of planning and providing the most appropriate learning and wellbeing program. All information will be treated with respect for the privacy of all involved.

The sharing of information may occur verbally and/or through the exchange of written information (eg copy of report). If you wish to provide confidential information that you do not want shared with a service provider, support services, school staff, or other agencies, you must tell the person you are talking with about this.

Information about the SA Government approved framework for information sharing between all Government agencies and relevant non-government agencies titled *Information Sharing: Guidelines for Promoting the Safety and Wellbeing of Children Young People and their Families* can be found at <https://www.childprotection.sa.gov.au/child-protection-initiatives/information-sharing-guidelines>

RECORD MANAGEMENT

A file is made up that contains the referral information. Information is added to the file as it is received. This may include case notes, medical requirements, reports, recommendations, programs and plans. The file will be kept in a secured area in accordance with record management guidelines.

Information relating to the enrolment and services is also entered on confidential EREA and Catholic Education databases. If the student transfers to another school, this file will be archived as per records management legislative requirements.

LENGTH OF CONSENT AND CLOSURE

In signing the consent form, you are providing permission for your child's/your school of enrolment to provide wellbeing and learning support for your child/you. You may withdraw your consent at any time. This is required in writing. If you think you may want to withdraw your consent, it is useful to have a discussion first with the school staff.
